

# Labour Market Information (LMI) for the City of York

Understanding the local job market can help you make well-informed decisions about your career. Here are some key insights into the labour market in York:

- **Heritage and Tourism:** As a historic city, York's tourism sector is strong, with roles in hospitality, events, and visitor services at attractions like York Minster and the city walls.
- **Healthcare and Social Care:** There is a pressing need for healthcare professionals to serve the growing population, including roles in hospitals, care homes, and community health.
- **Education and Research:** With the University of York and other educational institutions, the city offers roles in academia, research, and educational support services.
- **Creative and Digital Industries:** York is emerging as a hub for creative and digital businesses, with job opportunities in marketing, media, and software development.
- **Transport and Infrastructure:** The city's strategic transport connections drive demand in logistics, infrastructure maintenance, and urban development.

## Current Job Trends

- **Demand for Hospitality and Tourism Workers:** The thriving tourism industry continually seeks staff for hotels, restaurants, and attractions.
- **Digital and Creative Skills:** There is a rising need for individuals with expertise in digital marketing, web development, and creative media.
- **Skilled Trades and Construction:** Ongoing urban development and housing projects create opportunities for tradespeople, such as electricians, plumbers, and builders.
